

# OCEAView™

## TRAINING COURSE

This course covers the complete and comprehensive management of OCEAView™. The following aspects are covered in detail: solution architecture, LoRaWAN® wireless communication, compatible hardware, the main features of the software and mobile app, and procedures to follow when technical issues arise.

## TRAINING OBJECTIVES

**Reference:** PRE.FOR.0011

**Duration:** 1 day (7 hours)

**Audience:** This course is designed for new users, from read-only users to administrators.

**Prerequisites:** None.

### Participants will learn how to:

- Understand and master the solution's overall architecture.
- Configure OCEAView™ and, as necessary, associated hardware.
- Acknowledge alarms and manage alerts.
- Handle device configuration and maintenance with mobile applications.
- Troubleshoot and resolve common technical problems.

## COURSE CONTENTS

### 1. Solution architecture

- General operation
- LoRaWAN® protocol

- Reports
- Alert rules
- Audit trail
- Online help

### 2. Hardware

- Data loggers
- Sensors
- Receivers
